

MIKE DUPREE

Mike Dupree has provided landscape, irrigation, consultation, and design services to many North Carolina customers since 1989 in urban, rural, and agricultural environments. He has a vast knowledge of environmental Best Management Practices (BMPs), such as the following:

- Rain Gardens
- Cisterns
- Riparian Buffers
- Irrigation Solutions
- Native Plantings
- Stormwater Control Measures (SCMs)

In addition to his work with landowners, Mike has a passion for environmental education and outreach for youth and adults, including teaching, training, and bringing environmental education to the secondary school curriculum. His outreach efforts include stormwater solutions, sustainability practices, agricultural practices, conservation, landscaping, etc.

He is the owner of Feather Village Farms & Services and the founder of the nonprofit organization Urban Sustainability Solutions, Inc.
